Figure 1. Cisco Headset 321 and 322 and in-line USB controller

**The Cisco Headset 320 Series offers essential wired headsets with integrations into Cisco devices for easy setup. Equip with enhanced productivity features such as one button to join for Webex or Microsoft Teams.**

## Product overview

The Cisco® Headset 320 Series are affordable headsets that maximize your investment while providing the essentials for everyday office use. Featuring plug and play setup, clear audio, lightweight design, and a new one button to join experience that allows you to easily join a Webex or Microsoft Teams meeting.

Designed for workers who spend a lot of time wearing headsets at their desk and are looking to save time with productivity features like the Webex button.

The Headset 320 Series offers:

- Lightweight comfort that is ideal for extended wear
- Uncompromised sound in a minimalistic form factor
- Boom arm offers noise reduction in loud environments
- Easy, intuitive user configuration experience when used with Cisco IP Phones, Webex, or Microsoft Teams.
- Flexible options for connecting to devices: Supports USB-A, USB-C, and RJ9 connections
- Easy device management with Cisco Unified Communications Manager, Control Hub and Cisco collaboration endpoints
- New Webex or Microsoft Teams button, available on USB models, offers a more efficient user experience

## Features and benefits

Table 1. Features and benefits for Cisco Headset 320 Series

FEATURE	DESCRIPTION
<b>Integrated serviceability</b>	Headsets are easier to deploy, manage, and service with Cisco collaboration services. Centrally manage policy, defaults, and much more when using Cisco Headsets with Cisco Unified Communications Manager, Control Hub, and collaboration devices.
<b>Premium audio experience</b>	Advance ear cup design and wide frequency range speaker creates a full and rich sound that providing exceptional clear audio experience. Uni-directional ECM noise canceling mic help prevent noise around you, so you will be heard clearly.
<b>Lightweight and ergonomic design</b>	These headsets are designed to be delightful to wear for people who need to wear a headset all day. They feature quality materials, including multiaxial ear cups.
<b>Rich connection type</b>	Headset provides different models for different connection types including RJ-9, USB-A and USB-C (through USB-A to USB-C adapter). You can find the best fit for your work environment.
<b>Headset audio tuning</b> Works only on USB headsets with compatible Cisco endpoints	The microphone test removes the guesswork associated with tuning microphone gain levels by enabling users to record themselves speaking in their work environment and then playing the recordings back. Configurable sidetone allows users to adjust speaking volume to a proper level. User can also set the Equalization of the headset to best satisfy the ear.
<b>One button to join</b>	<p><b>Webex button:</b> integrates with Webex to give you the ability to join a meeting by pressing one button, invoke the Webex App, answer, end, or hold calls.</p> <p><b>Microsoft Teams button:</b> integrates with Microsoft Teams to give you the ability to join a meeting by pressing one button, invoke the Microsoft Teams App, answer, end, or hold calls.</p>

# Compatibility

For compatibility information with Cisco IP Phone, Webex Desk Series, Webex, Cisco Jabber, and Webex Meetings, please refer to [Cisco Headset Compatibility Guide](#) for details.
